Our Facility

The Psychomotor and Surgical Skills Lab is also the home to the Department's in-house educational resource center. It currently houses over 100 educational DVDs on the latest surgical procedure techniques and equipment. In addition, a portable education station is also readily accessible for the needs of our faculty and residents.

State of the Art Resources

- **5 Fully Equipped Stations:**
Features dual optic teaching microscopes, instruments, inline suction and irrigation.
- **Instructor Station:**
Fully-equipped station with an instructor's console that can monitor and control student stations. Central audio and video is available throughout a live demonstration.
- **Integrated Audio/Visual Media:**
Includes three plasma screens, seven video cameras, twelve LCD monitors, audio reinforcement, and bi-directional teleconferencing for live demonstrations in the lab and in connected conference rooms.
- **Locker Room:**
Secure storage lockers for personal belongings and a changing area with scrubs for all users.
- **Freezer Storage:**
Two 30 cubic foot freezers and one 50 cubic foot refrigerator.

Additional Services

- **Specimen Procurement**
Use of reputable resources to provide specimens as necessary for a client's event; strict adherence to requirements of the Anatomical Board of the State of Florida and all ethical standards developed for the handling and disposal of tissue.
- **C-arm Imaging Package**
Available for any fluoro-assisted courses provided by TDRS, Inc., Sarasota, FL.
- **Conference Room**
Variable seating for up to 60; totals 1,734 square feet. Connected for bi-directional audio and video integration with the Psychomotor and Surgical Skill Lab, allowing for instantaneous information transmission.

- Full-service catering capabilities for groups of attendees for breakfast, breaks, or full sit-
